ST-620H**

Wireless Heat Detector

Product Overview:

Wireless Heat Detector, Ceiling installation, Manual test, this device is designed to detect ambient temperature exceeds 65°C and trigger an alarm in case of fire. The device offers different connectivity options and alert mechanisms to ensure timely action for the safety of lives and property.

Technical Parameters

Battery Voltage	DC 3V / 1600mAh
Alarm Current	≤100mA
Standby Current	≤10μA
Alarm sound	85dB (3M)
Radio Frequency	433.92MHz
Wireless Range	>250m (Open Area)
Alarm temperature	60°C ~ 70°C
Humidity	≤ 95%
Dimension	125mm*50mm (include mounting bracket)
Weight	196g
Dimensions	Ø 89mm x 41.7 mm (including mounting plate)
